Design Ventura 2023-24

Team Ice Breakers

PURPOSE

To support your students to work in teams, and to generate early ideas in response to the Design Ventura brief.

INTRODUCTION

This resource features a series of short 'icebreaker' activities. They aim to help you to support students to find ways into the brief, choose their teams, understand teamwork, and find their individual talents.

WHEN TO USE THESE MATERIALS

These icebreakers can adapted for use as lesson starters or at any point in the project, but will probably be most useful as extension activities before or after the launch workshop.

OVERVIEW

Aims Support students to develop design ideas through

> drawing, discussion and simple model-making Provide insights into the professional world of design Help individual students appreciate their talents and

contributions to their team

Learning Kick-starting, sketching and developing ideas in

intentions response to a brief

> Gaining insights into teamwork and individual roles Gaining insights required to answer a brief as part of

a team

PLTS Team Workers: collaborate, reach agreements,

> adapt behaviour, show fairness, take responsibility Self-managers: Seek out new challenges, work

towards a goal, reflective

Learners: Assess themselves and others, set goals,

review progress, invite feedback Creative thinkers: all subset skills.

Duration 20-30 mins (depending on chosen activity)

Video/worksheet Ventura brief film (on the Design Ventura Website

resources from Sept)

Team Role Description sheet

Paper, pencils, pens, Post-Its, ball of string Materials

Hygiene Hygiene standards should be considered, including

> regular hand washing, the use of gloves for object handling, cleaning any shared materials with antibacterial wipes/spray between handlings.

Bringing the business of design to life with Deutsche Bank

SUMMARY OF ACTIVITIES

- 1. Fun warm up
- 2. Team roles focus workshop
- 3. Team identity activity

PURPOSE: To support your students to work in teams, and to generate early ideas in response to the Design Ventura brief.

THE FUN WARM UP

Purpose of activity

To kick-start the Design Ventura project in a fun way To warm students up by working with others towards a

common goal

The goal A 'spider web' of connections made with a ball of string,

which will be affected by different decisions made by

the team.

How Students can do this activity as a class, group or team

20 mins **Timing**

You need A large ball of string

The activity

- 1. Position students in a circle, or around the edges of
- 2. The 'team leader' holds the end of the ball of string, says the name of another student and throws the ball of string towards them, keeping hold of the end.
- 3. The person catches the ball, pulls the string tight between them and the 'leader', and keeps hold of their section. They then say the name of another student whilst throwing the ball towards them.
- 4. This is repeated until all students are holding a section of the string and a 'web' has formed between participants.
- 5. The group can then see how their actions affect the web – can everyone sit down on the floor without letting the web fall apart? What happens when one person pulls hard on their section? What happens when two people let go? What happens if the string is cut in the middle? Encourage the group to experiment with different ideas.

Potential outcomes/ next steps Explain how team members will be connected so the actions of a single person will affect the whole team, in both positive ways and negative ways.

Everyone has a responsibility to contribute.

Are natural groups or team leaders starting to emerge? Discuss with students what they enjoyed about working together.

Bringing the business of design to life with Deutsche Bank

Purpose of activity

To highlight the requirements of the Design Ventura team roles. To enable students to understand and

choose their suitable roles.

The goal Students will write short job descriptions for each of

the team roles and consider the skills, attributes and

responsibilities required for each.

How Students can do this activity as a class or in groups

around tables.

30 mins **Timing**

You need Large sheets of paper, post-its and chunky pens

handy.

Role descriptions for team members.

Top tip A job description defines a person's role and

responsibility.

A Job

Description should include A list of the tasks you have to do in the job

What responsibilities you take on in order to do the job What skills and attributes you need to have to do the

job.

The activity 1. As a class, write each job description on a big sheet

of paper

2. In pairs ask students to write the following things

about each other on a post-it note:

Name

Two important aspects of their personality

Two skills/attributes they have (Encourage students to

be factual and fair and to discuss answers)

3. Now ask students to place their post-it notes by the

Job Description that they think best suits their

partner's skills and attributes. Discuss as a class and use the findings to create teams and choose roles in

each team.

Potential outcomes/ next steps

Students can start to work together within their newly

chosen teams

Students can refer to and use their job descriptions as

touchstones to appreciate what they need to do to

fulfil their role within their new team

Bringing the business of design to life with Deutsche Bank

Purpose of activity

Once students have their team roles, they may wish to use their individual skills to create their own team

identity

The goal

Teams create a team identity including a team name

and logo

How

Students can do this activity in teams

Timing

30 mins

You need

Paper and pens

The activity

1. Ask teams to consider:

Their strengths?

Their team ambitions for the Design Ventura project?

How they want to work together?

Any early design ideas that fit the brief?

Create signs/ symbols/ logos/ mascots to suit your

personalities

2. Bring all these answers together as a team. Is a

word, phrase or pattern emerging?

3. Adapt and make a hybrid of your designs to come

up with a team logo.

4. Create a short list of ground rules for working as a

team that you all agree on: How do you make decisions? How will you keep to task?

How do you ensure everyone's opinion is heard?

Top tip: If students are stuck for team names, list them

out in a game of 'consequences'.

Take it in turns to list a name on a piece of A4 paper.

Fold the paper hiding the name you wrote and pass it on to the next team member to do the same. Look at all your ideas for names. Which are the

favourites? Can some be combined? If needed, vote

to decide on a name.

5. Ask students to present their new team identities to

the class.

Potential outcomes/ next steps

Students have a clear identity and manifesto for working together. Students can re-use elements of this activity later to develop names and logo ideas for

their products.
